Bio

Hi my name is Ujjwal sharma, I am 21 years old. I currently live in New Delhi, India. I am pursuing bachelor’s of computer applications.

Projects

Realtor

Realtor is a real-estate app. Users can search for properties and sort them out using the filter system of the app.

Web Novel

A webflow template which is heavily custom coded and fully managed by webflow’s CMS system. Any author/user can use this template to publish their own web-novel / comic. It has dedicated chapter index silder at the bottom so users can guide through different chapters. It has sorting as well as saving relevant data capabilities.

MantraLabs

An e-commerce store built in webflow which is heavily custom coded. The website contains many elements of a proper store, including many different widgets multiple checkouts depending on quantity, subscription model etc.

Expense Tracker

A minimal expense tracker app, in whcih user can add expenses, incomes, edit them delete them and can even sort them out based on date, total income, total expenses.

(There are more projects on my personal portfolio website. You can check them out also you can reach me out on linkedIn or upwork.)

(Thank you for taking your time to read my CV.)
